Last celebs-going-schizo thread got shoahed. Let's start a new one.

In the previous bread someone mentioned

&gt;need to start posting shit about Vegas and Campos

&gt;NEVER FORGET SHE HELPED COVER UP THE LAS VEGAS INCIDENT

What's this about? What did Ellen do with the Las Vegas shooting?

Boo by Ruth Asawa

&gt; Asawa believed in a hands-on experience for children, and followed the approach "learning by doing". Asawa believed in the benefit of children learning from professional artists, something she adopted from learning from practicing artists at Black Mountain College. She believed that classroom teachers could not be expected to teach the arts, on top of all their other responsibilities.

She's a deep state narrative manager. Flood her social media with Jesus Campos posts

Look up the adrenochrome conspiracy. Schizos think she drinks baby/kid blood to look young when really it's just Botox and plastic surgery. It's entertaining reading but also retarded

Well, there's pic related.

Not sure if she is apedo herself, but she does allegedly partake in adrenochrome.

Ellen appears to be wearing an ankle monitor, suggesting she is under house arrest.

She is definitely this

&gt;She's a deep state narrative manager

I haven't seen anything except Q schizos in her twitter comments raving about some celebrity drug and comparing pictures of trees that don't look the same to prove she's at guantanamo.

The ankle bracelet in the op could easily be those cheap ankle weights for hiking.

Reasonable adrenochrome:

&gt;refers to the adrena-like compounds in the blood not just adrenochrome and its derivatives multiple instances of her publicly displaying this symbolism:

&gt;the stage for The Ellen Show is the temple at Little St James Island

&gt;She dances with the white rabbit (adrenochrome)

&gt;Hanged man stance with hermes tarot cards on the table

&gt;Book on the table that talks about how common child abuse rituals are in African countries

&gt;Four of hearts sweatshirt (four of hearts = bringing bad news)

&gt;Art of Jean Basquiat the devil worshipping artist who died of a heroin addict

&gt;yellow canary singing

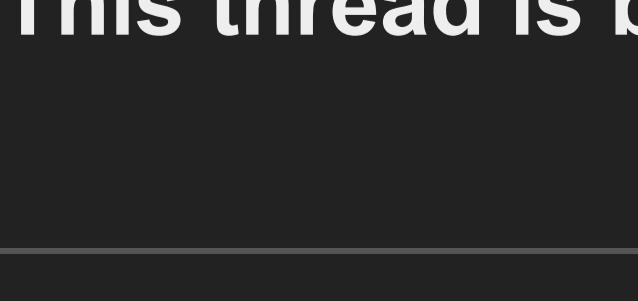

Ellen has adrenochrome/drug induced psychosis. She thinks she's god and she thought Jean Basquiat was the devil.
